

I'm very concerned that such a sweeping change could be made in ownership rules without public awareness and opinion. I'm especially worried about the quality of the news we receive. I'm appalled that none of the major networks have covered this story in more depth and believe this should be a warning to all of us about the type of news we receive when corporations start controlling content.

I would urge you to ensure the public is more involved in any decisions made. I also would urge you to not allow so few corporations to control all of our media.
